## **PART 1 – ORDERS SOUGHT**

1. The Applicant, Jack Marks, seeks an extension until January 30, 2026 to file and serve written submissions on the merits of his Application for Hearing and Review.

## **PART 2 – GROUNDS**

1. Jenny Musyj, who had conduct of this file, is no longer with counsel for the Applicant's firm. Her absence has created significant calendar complexities and has exponentially increased the commitments of other members of the firm. As such, counsel needs a bit of additional time to provide submissions in light of the challenges that have come with Ms. Musyj's absence.
2. The right of the Applicant to a fair hearing is a paramount consideration. It would be wholly unfair to proceed on the current timeline, given the significant difficulty counsel for the Applicant will have in meeting the current deadline. The short extension would allow counsel to meet this deadline and would cause no prejudice to the Respondents.

Date: January 15, 2026
